

Heatlight VLP10 infrared paint dryer

Victory's Heatlight range of automotive paint dryers has many options for both large and small jobs. The VLP10 combines the flexibility of a hand held paint dryer with the benefits of a free standing heater. As a handheld unit it is perfect for small repairs, while used with a stand it becomes an ideal additional heat source or spot drying unit to complement larger systems.

The Heatlight VLP10 is ideal for use on small repairs and other drying jobs. It can be used hand held or mounted on a stand for many tasks such as engine drying, strip removal, filler drying, stone chip repairs and preheating prior to spraying.

Flexible, powerful drying

- Fitted with 1kW short wave Gold lamp
- Pistol grip handle
- Wide angle Hi-light reflector
- 3m of flexible cable
