Victory VLPX10 Infrared Paint Dryer

Victory's range of automotive paint dryers has many options for both large and small jobs. The VLPX10 is a longer model with a 1kW, single-lamp, stand-mountable unit which compliments any existing full size drying system. It is ideal for drying sills, bumpers, lower areas of the vehicle and any number of other small jobs — either with or without the optional Victory lightweight stand. With the stand, it becomes an ideal additional heat source or spot drying unit.

VLPX10

The Victory VLPX10 is intended for use on small repairs and drying jobs such as engine drying, stripe removal, filler drying and pre-heating prior to spraying. VLPX10 dryers are supplied fitted with one 1kW ruby jacketed shortwave lamp.

Applications

- Spot drying
- Engine drying
- Strip removal
- Filler drying
- Stone chip repairs
- Preheating prior to spraying

Isolating switch
