

VLRC2 remote control step dimmer

For switching & adjusting the heat output of Victory infrared heaters, providing a comfortable temperature environment in a variety of indoor and outdoor applications.

The unit is simple to operate via the hand held remote controller which switches On/Off and has a four stage stepped dimming function. The dimmer is operated through 4 steps using the handheld remote's up or down arrows from a distance up to 20 meters (depending on local environmental conditions).

By reducing the power required, energy is saved, making the unit environmentally friendly as well as affordable from savings created in electricity costs.
