Your Partner in IR
and UV Technology

PET manufacturing

Why work With Us?

With over 30 years' experience in the industry, we are committed to maximising Infrared & UV technology to the benefit of our customers.

We are...

DEDICATED to finding the right solution

NIMBLE AND FLEXIBLE

PRICE COMPETITIVE so you can experience the benefits of our solution

We already supply trusted IR lamps into the PET industry. We can provide lamps that will fit within your existing machinery to drive a better performance, or work on bespoke solutions with you. Our products perform well, have fast lead times and are competitively priced through our state of the art manufacturing facility.

Discover how we can help **revolutionize your manufacturing processes, enhance efficiency,** and **elevate the quality** of your products.

Benefits

Why use Infrared in PET Manufacturing?

UNIFORM HEATING

REDUCED MATERIAL WASTE

ENERGY EFFICIENCY

We Have A Solution For You

Here at Victory, we have refined our range of Infrared lamps to ensure maximum output, manufacturing efficiencies and high performance.

Our lamps deliver on...

Performance

With our R&D team we have created a unique reflector coating which gives **GREATER REFLECTIVITY** in turn optimising energy efficiency.

Quality

Using the best components and technical expertise, we have a **MINIMUM RUN TIME OF 5,000 HOURS.**

Competitive Pricing & Short Lead Times

We are able to offer a strong price value to you with short lead times.

Existing System Compatibility

Our lamps will fit within your existing systems.

White Reflector Coated Lamps

- Cost effective
- >80% Reflectivity

Gold Reflector Coated Lamps

- Made with pure gold
- >90% Reflectivity

We can also create **bespoke, made to order lamps for your exact needs** and overcome challenges to **improve your production process.**
