

VICTORY
SOLUTIONS

Your Partner in IR and UV Technology

To Drive Improvements in Glass Processing

Why Work With Us?

With over 30 years' experience manufacturing IR & UV technology, we are committed to bringing these solutions to others for the benefit their manufacturing process.

We are...

DEDICATED to finding the right solution

NIMBLE AND FLEXIBLE

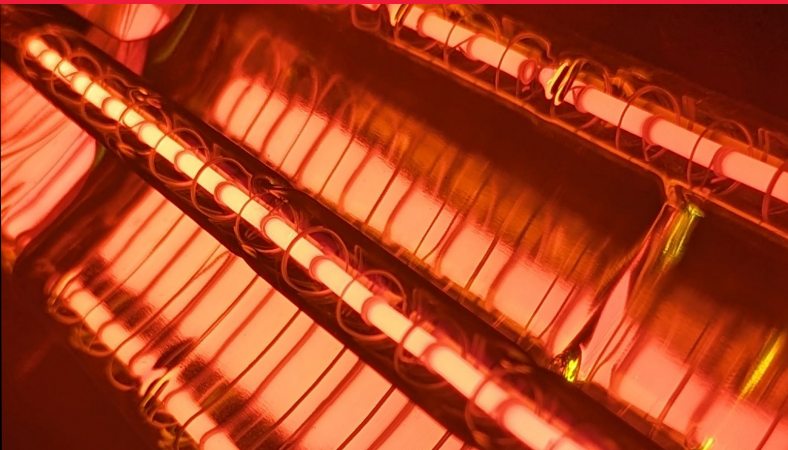

PRICE COMPETITIVE so you can experience the benefits of our solution

We already operate in a number of industries that use IR & UV technology to help their processes and operations.

Discover how our innovative approach can **revolutionise** your manufacturing processes, **enhance** efficiency and **elevate** the quality of your products

Benefits Of IR & UV Technology In Glass Processing

INFRARED HEATING & DRYING

Infrared Technology Provides:

- * Drying Coatings & Preheating
- * Energy Efficiency
- * Versatile Applications

ULTRAVIOLET CURING & DISINFECTION

UV Technology Provides:

- * Effectively Cure Inks
- * Energy Efficiency
- * Disinfection & Sterilisation

We Have A Solution For You

Here at Victory, we have a tried and tested range of IR and UV lamps plus full technology solutions perfectly suited for glass processing.

INFRARED

A vast range of Infrared lamps for heating, curing and energy efficiency

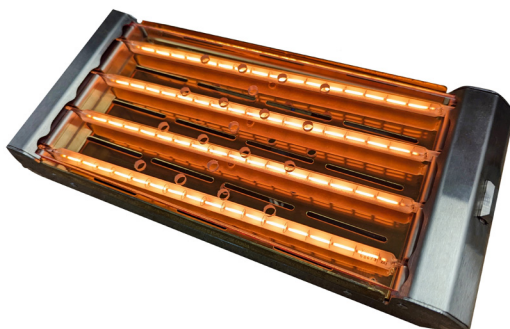

ULTRAVIOLET

UV Curing and UVC Disinfection Lamps.

SOLUTIONS

Fully made IR and UV Solutions

Our Products Deliver On:

Performance

With our R&D team have tested many wavelengths to find the optimal drying time at a range of temperatures and power output.

Quality

Using the best components and technical expertise, we have a **MINIMUM RUN TIME OF 5,000 HOURS FOR IR AND 1,000 FOR UV**

Competitive Pricing & Short Lead Times

We are able to offer a strong price value to you with short lead times.

Flexibility

If our lamps don't fit within your existing system, we can manufacture to your exact production needs

We can also manufacture **bespoke solutions** for your exact manufacturing needs to help **drive efficiency, improve productivity** and deliver a **better product**.
